PRESS RELEASE - 03 DECEMBER 2020

Reconstruction and operation of Gedser Wind Turbine can be resumed

After discussions between the parties MC Wind I / S v / Lasse Kold, Randers, and Gitte Ahrenkiel, Gedser, and involved lawyers, it has now been clarified that the ownership of the historic mill tower in accordance with a settlement reached (notified to the Bailiff's Court in Nykobing F. 16 April 2019) belongs to landowner Gitte Ahrenkiel at the turn of the year 2019/2020.

As the ownership of the tower has thus been decided, we find the time to announce that the planned project on Reconstruction and Operation of Gedser Wind Turbine can now be resumed. This is done in already established collaborations with conservation authorities, museums and others.

The reconstruction project at Korsagervej 14 in Gedser, where the original historic tower is located, is administered by the Association: Operation of Gedser Wind Turbine, CVR: 41238992.

On behalf of Gitte Ahrenkiel

Lawyer Jesper Popp, Bjerremarksgaarden 35 - 4760 Vordingborg
